MISSION-READY CONSTRUCTION CAPACITY FOR FEDERAL, INSTITUTIONAL & COMPLEX FACILITY REQUIREMENTS

CORE CAPABILITIES

NuPrana delivers general contracting, design-build, renovation, and specialty-trade construction with disciplined scheduling, field coordination, safety, and cost control. Our strongest fit is work requiring responsive mobilization, multi-trade execution, and accountable project delivery.

General Contracting	New construction • renovation • occupied-facility work
Civil / Structural	Site preparation • concrete • masonry • structural metals
Building Envelope	Roofing • thermal/moisture protection • doors/windows
Interior / MEP Coordination	Framing • drywall • finishes • plumbing • HVAC coordination

WHY NUPRANA

- Zero lost-time accident history reported in the current company capability statement.
- Documented bonding capacity: \$6.0M single project.
- Design-build mindset focused on constructability, schedule discipline, and risk reduction.
- Small-business agility with multi-state builder licensing and federal socioeconomic positioning.
- Owner-led accountability and direct executive access from pursuit through closeout.

SELECTED PAST PERFORMANCE

Hiram H. Ward Federal Building & U.S. Courthouse: Upfit of two cold-shell office spaces for the Department of Veterans Affairs Regional Office.

Bank of America Stadium / Panthers Scoreboard: Concrete platform work supporting the 211-foot scoreboard structure.

Charlotte-Mecklenburg Schools: Site development, foundations and stairs supporting fieldhouse, locker-room, restroom, seating and athletic-field improvements.

Child Care Network: Code-violation remediation and corrective construction.

Anthony Givens Landscaping – Huntersville, NC: 70 x 34 steel-building erection with mechanical, plumbing and electrical scope coordination.

Residential / Renovation Portfolio – NC & SC: Ground-up residential construction, additions and substantial basement/interior build-outs.
